PROJECTS

QUIZ WEBSITE	Html, Css, Javascript
<ul style="list-style-type: none">Developed an interactive quiz application using HTML, CSS, and JavaScript with a 1-minute countdown timer for each question, dynamic question rendering, and real-time answer tracking. Implemented responsive UI, smooth question navigation, and a final results screen displaying the users score at the end of the quiz.	
IMAGE FILTER WEB APP	Python, Streamlit, OpenCV, NumPy, Pillow, Git, Streamlit Cloud, GitHub
<ul style="list-style-type: none">Developed a web application using Python, Streamlit, OpenCV, NumPy, and Pillow that allows users to upload images and apply filters such as Grayscale, Sepia, Blur, and Sketch, with real-time preview and download functionality. Deployed on Streamlit Cloud for public access.	
CHATBOT	JavaScript, Node.js, OpenRouter API, HTML, CSS
<ul style="list-style-type: none">Developed an AI-powered chatbot using the OpenRouter API to connect with advanced Large Language Models (LLMs) for natural, human-like conversations. Implemented with Node.js for backend logic and HTML/CSS/JavaScript for the frontend, enabling real-time, API-driven responses.	

CERTIFICATION

- **Udemy:** CSS And Javascript Complete Course For Beginners
